## Summary

Aspiring Full-Stack Developer with hands-on experience in web development, proficient in JavaScript, React, Node.js, and TypeScript. Skilled in creating dynamic, user-focused solutions using frameworks like Next.js, Tailwind CSS, and MongoDB. Successfully completed projects including data-driven WhatsApp chat analysis and finance management systems. Eager to contribute to innovative teams and grow through challenging opportunities

## Experience

### Medini Technologies

Jun 2025 - Present

Junior developer

🔗 <https://www.medini.in/>

Working on Full stack Project

### TechVritti

March 2025 - May -2025

Intern

Benaglore

### Zetpeak

June 2023- September-2023

Intern

Bengalore

🔗 <https://zetpeak.com/>

Developed and implemented a new responsive Website.

## Education

### NIST

December 2021-Present

Computer Science and Engineering

B.Tech

## Skills

### Web Technologies

### Mathematics & Statistics

HTML5, JavaScript, Python, React.js, Node.js, MongoDB

Linear Algebra, Calculus, Probability, and Statistics

### Tools

### Programming

Git, Github, Postman, REST API

object-oriented programming (OOP)

Java, Python

### Model Deployment & MLOps

### Data Handling & Analysis

FastAPI, Flask, AWS, GCP, Azure, Docker, Kubernetes

Matplotlib, Seaborn, Plotly, Dash, Pandas, NumPy, and

Scikit-Learn

## Certifications

### Python For Data Science

August-2023

NPTEL

🔗 [Explore](#)

Completed the Python for Data Science certification program offered by NPTEL, showcasing proficiency in key data science concepts and Python programming for data Science.

Awards	<b>PMEC Coding Competition</b> Runners up <a href="#"><u>Explore</u></a> Demonstrated problem-solving skills by solving five coding challenges within the given time frame.	22nd May 2023
Projects	<b>Live Interview Platform</b> <a href="https://interviewpage-inky.vercel.app/interviewer/dashboard"><u>https://interviewpage-inky.vercel.app/interviewer/dashboard</u></a> Developed a scalable, real-time Live Interview Platform enabling seamless technical interviews with features like video/audio calls, screen sharing, and a collaborative code editor. The platform supports three user roles: <b>Candidate, Interviewer, and Admin</b> , each with role-specific dashboards and permissions. React, Node.js, WebRTC, Socket.IO, Full-Stack Developer	March 2025 -April 2025
	<b>Finance Management and Prediction Tool</b> <a href="https://chatapp-ui-rho.vercel.app/"><u>https://chatapp-ui-rho.vercel.app/</u></a> Developed a full-stack finance management application using Node.js, Express, MongoDB, Next.js TypeScript, and Vite. The backend supports secure environment handling, CORS, and logging, while the frontend emphasizes clean, component-based architecture. The tool facilitates financial management and predictions based on historical data, providing a robust and efficient solution for tracking and forecasting financial metrics.	Jun 2024 - Present
	<b>Real-Time Chat Application</b> Let's connect the world in the palm of your hand. <a href="https://chatapp-ui-rho.vercel.app/"><u>https://chatapp-ui-rho.vercel.app/</u></a> Developed a feature-rich chat platform with real-time communication using <u>Socket.IO</u> for bi-directional, low-latency data transfer. Designed and implemented the frontend using <b>React.js</b> , incorporating responsive UI and a seamless user experience. Built a robust backend with <b>Node.js</b> and <b>Express</b> , ensuring efficient handling of user authentication, message storage, and API endpoints. Integrated <b>MongoDB</b> for persistent data storage, including user details, chat messages, and conversation history.	
Volunteering	<b>NIST Cloud computing Club</b> Operation Lead Actively contribute to the NIST Cloud Computing Club, engaging in collaborative efforts and knowledge-sharing within the cloud computing domain. <a href="#"><u>Club website</u></a>	Feb 2023 -present
